Dear Mr. Cohen:

Pursuant to your request of September 22, 2010, to collect additional 3D and 2D seismic data, I approve the additional data collection. The G&G Permit Coordinator reviewed the location of the new proposed activity areas and found them to occur within the permitted area of operations. The new detailed track-line maps were received today and accepted by the Bureau of Ocean Energy Management, Regulation and Enforcement.

If we can be of further assistance, please contact Rance R. Wall (907) 334-5321 or Pete Sloan (907) 334-5328.

Sincerely,

Robert H. Peterson (acting for Rance Wall)
