Notice

This document is disseminated under the sponsorship of the U. S. Department of the Interior, Minerals Management Service, Alaska Outer Continental Shelf Region, in the interest of informational exchange. The United States Government assumes no liability for its content or use thereof.

Persons Preparing this Report

The data in this report were assembled by **Gunnar Knapp** and **Troy Henley** of the Institute of Social and Economic Research between September 1984 and December 1985. The North Slope Borough, Alaska Consultants, Inc., and the **Alaska** Department of Labor provided helpful assistance.

Introduction

We collected the data in this volume as appendixes to a study of the economy of Alaska's North Slope Borough for the Minerals Management Service's Social and Economic Studies Program. Our purpose in presenting these data is to provide a reference volume which may be useful to the North Slope Borough as well as to other researchers.

The data collected here are from a variety of sources. Among the most important sources are the 1980 U.S. Census, Alaska Department of Labor publications, surveys conducted in 1980 and 1982 by Alaska Consultants, Inc., and North Slope Borough publications. Almost all of the information has been previously published, and in many cases, we have simply reproduced the data from the original source. All credit for these data should go to the original sources. We take responsibility for any errors in our presentation of these data.

The data are arranged in seven appendixes, as listed below. A list of tables is included at the beginning of each appendix.

- APPENDIX E: NORTH SLOPE BOROUGH EMPLOYMENT DATA
- APPENDIX F: NORTH SLOPE BOROUGH POPULATION DATA
- APPENDIX G: NORTH SLOPE BOROUGH REVENUES DATA
- APPENDIX I: NORTH SLOPE BOROUGH BONDING AND DEBT DATA
- APPENDIX J: NORTH SLOPE BOROUGH EXPENDITURES DATA
- APPENDIX K: NORTH SLOPE BOROUGH PROPERTY VALUES DATA
- APPENDIX L: NORTH SLOPE BOROUGH INCOME DATA

APPENDIX E

NORTH SLOPE BOROUGH EMPLOYMENT DATA

* Not disclosed.

(a) Does not include construction workers hired directly by the North Slope Borough for CIP projects.

(b) Most North Slope Borough employment is listed under "Barrow," including jobs actually located in other villages.

NOTE: "Prudhoe Bay" refers to Prudhoe Bay labor subarea. "Barrow" refers to Barrow labor subarea. "North Slope Villages" refers to all other North Slope locations; specifically, these include Atkasook, Browerville, Meade River, Point Barrow, Tikilikuk, Cape Lisburne, Cape Thompson, Chariot, Point Hope, Tigara, Weyok, Point Lay, Wainwright, Kokruagarok, Umiat, Anaktuvuk pass, Chandler Lake, Nuiasut, Barter Island, Gordon, Humphrey Point, and Kaktovik.

TABLE E-71

Percent Distribution of Reasons Why
Eskimos 18 and Over Left Jobs*
October 1976--September 1977

Reason Left Job	Percentage
Laid off	33%
Found better job	19
Quit, no reason given	8
Did not like job	8
To hunt	6
Family reasons	6
Other	20
Total	100%
(Number of Terminations)	(198)

*Based on all terminations of jobs held by Eskimo adults during our study year.

Source: ISER North Slope Survey, 1977, Questions 31i, 32i, 33i.

TABLE E-72

Percent Distributions, Eskimo Workers,* by Sex,
by Total Weeks Worked, 1970, 1977

Total Weeks Worked	Men		Women	
	1970	1977	1970	1977
Less than 26 weeks	39%	54%	53%	38%
27 to 49 weeks	33	11	23	21
50 to 52 weeks	28	35	24	41
Total	100%	100%	100%	100%
(Respondents)	(469)	(76)	(172)	(48)

*Tables 4-9 through 4-14 exclude the approximately 25 percent of men and 46 percent of women who did not work during our study year.

Sources: U.S. Bureau of the Census, 1970 Census of Population; ISER North Slope Survey, 1977, Questions 29f, 30f, 31g, 32g, 33g.

SOURCE: Tables E-71 and E-72 are reprinted from Jack Kruse, Judith Kleinfeld, and Robert Travis, Energy Development and the North Slope Inupiat: Quantitative Analysis of Social and Economic Change, Han-in-the-Arctic Program Monograph No. 1, pp. 45, 46.

TABLE E-73

Median Weekly Wages Paid Eskimos 18 and Over,
by Occupation,
October 1976-September 1977

Occupation ^a	Median Weekly Wage
Trades (Skilled Blue Collar)	\$600
Laborers (Unskilled Blue Collar)	512
Professional-Technical-Managerial	412
Set-piece	252
Clerical/Sales	214
Paraprofessional^b	197

^aSee Table 4-5 for kinds of jobs included in occupational categories.

^bThis occupational category includes health and teachers' aides and others who are trained to take on some of the duties of nurses, teachers, and other professionals. Because the U.S. Bureau of the Census includes these paraprofessional workers in the "Semite" category, Table 4-5 does not separate paraprofessional from service workers.

Source: ISER North Slope Survey, 1977, Questions 30a, 30e, 31c, 31f, 32b, 32f, 33b, 33f.

TABLE E-74

Percent Distributions of Eskimo Workers 18 and Over, by Village, by Weekly Wages
October 1 976--September 1977

Weekly Wages	Village						
	Barrow	Anaktuvuk	Kaktovik	Nuiqsut	Wainwright	Pt. Hope	All Villages
s 1-199	12%	24%	21%	18%	18%	7%	14%

400-599	27	33	17	5	20	13	24
600-799	8	14	4	9	7	2	8
800+	21	7	46	27	25	41	24
Average Weekly Wage	\$474	\$311	\$466	\$402	\$354	\$691	\$468
(Total Jobs)	(130)	(42)	(24)	(22)	(56)	(46)	(320)

Source: ISER North Slope Survey, 1977, Questions 29e, 30e, 31f, 32f, 33f.

SOURCE: Tables E-73 and E-74 are reprinted from Jack Kruse, Judith Kleinfeld, and Robert Travis, Energy Development and the North Slope Inupiat: Quantitative Analysis of Social and Economic Change, Man-in-the-Arctic Program Monograph No. 1, page 47.

TABLE E-75

Percentages of Eskimos, by Age, Who Had Worked for Selected Employers^a as of September 1977

Employer	Age					All Ages
	18-24	25-34	35-44	45-54	55+	
North Slope Borough	75%	68%	53%	57%	16%	57%
Arctic Slope Regional Corporation	29	25	28	21	10	24 ^b
Oil companies ^c	8	22	18	21	-	14
(Respondents)	(50)	(88)	(66)	(35)	(49)	(288)

^aIncludes all Eskimo adults who had worked for the employers at any time before September 1977.

^bMissing data causes a slight variation in Tables 4-4, 4-19, and 4-28 in percentages of adults listed as having worked for the Arctic Slope Regional Corporation at some time before September 1977.

^cIncludes those who had worked for oil companies or Alyeska Pipeline Service Company, the consortium operating the trans-Alaska Pipeline.

TABLE E-76

Percent Distributions of Eskimo Workers, by Village and Occupation, October 1976-September 1977

Occupation	Village						All Villages
	Barrow	Anaktuvuk	Kaktovik	Nuiqsut	Wainwright	Pt. Hope

a/ Employment was not necessarily full-time or permanent. People were asked only to list their employer or major source of income.

b/ Employment figures exclude GO Alaska Natives (26 males and 34 females) who listed various forms of assistance, primarily Social Security, as their major source of income. Employment figures also exclude 451 Alaska Natives (185 males and 266 females) and 23 non-Natives (5 males and 18 females) aged 16 and over for whom no employment information was provided or who claimed to be unemployed.

Source: Alaska Consultants, Inc., North Slope Borough Housing Survey, prepared for the North Slope Borough Public Works Department, Anchorage, September 1980.

Local Labor Statistics Prepared by MMCW

According to an MMCW employee, the following seven tables (E-136--E-142) were prepared by employees of MMCW working in each of the North Slope Borough villages except Barrow.

The "Total Available Work Force" column refers to the occupations of potential members of the local labor force, both employed and unemployed, as given by the individuals themselves. According to an MMCW employee, this potential work force may change considerably from month to month.

The "NSB Dept. Full-Time" column refers to employees of the North Slope Borough. The "CIP Project" Employees column refers to employees working on CIP contracts other than persons employed by the North Slope Borough. The "Other Full-Time" column refers to all other employees.

The tables are reprinted from North Slope Borough Department of Public Works CIP Project Status Report, January 1985.

TABLE F-5
 NORTH SLOPE NATIVE POPULATION BY AGE AND SEX,
 1980, VILLAGES EXCLUDING POINT LAY AND ATKASOOK

A g e	Mal e	Femal e	Tots l
0-4	174	170	344
5-14	3 0 9	326	635
15-19	222	219	441
20-34	458	372	830
35-64	365	301	666
65+	<u>72</u>	<u>58</u>	<u>130</u>
Total	1 6 0 0	1446	3046

NOTE : Includes only the communities of Anaktuvuk Pass, Barrow, Kaktovik, Nuiqsut, Point Hope, and Wainwright. - Data for other areas was suppressed.

SOURCE: 1980 Census Data, as given in Table F-2.

TABLE F-6
ESTIMATED NORTH SLOPE NATIVE POPULATION BY AGE AND SEX,
1980; FOR EIGHT NORTH SLOPE VILLAGES

Age	Male	Female	Total
0-4	183	179	362
5-14	325	343	668
15-19	234	231	465
20-34	482	393	875
35-64	384	317	701
<u>65+</u>	<u>76</u>	<u>61</u>	<u>137</u>
Total	<u>1685</u>	<u>1523</u>	<u>3208</u>

SOURCE: Calculated based on 1980 census data presented in Table F-5. The 1980 total North Slope native population for the eight villages was 3,208 (Table F-10). The population figures in Table F-5, which excluded the villages of Atkasook and Point Lay, totaled only 3,046. In order to estimate Native population by age-sex group for all eight villages, we multiplied the figures in Table F-5 by 3,208/3,046, or 1.053. We arbitrarily increased Female Population aged 20-34 by one to obtain a total population figure of 3,208.

TABLE F-7
 NON-NATIVE NORTH SLOPE POPULATION BY AGE AND SEX,
 1980, VILLAGES EXCLUDING POINT LAY AND ATKASOOK

Age	Male	Female	Tots 1
0-4	18	28	46
5-14	39	28	67
15-19	19	11	30
20-34	171	125	296
35-64	112	49	161
<u>65+</u>	<u>2</u>	<u>4</u>	<u>6</u>
Total	<u>361</u>	<u>245</u>	<u>606</u>

NOTE: Includes only the communities of Anaktuvuk Pass, Barrow, Kaktovik, Nuiqsut, Point Hope, and Mainwright. Data for other areas was suppressed.

SOURCE: 1980 Census Data, as given in Table F-3.

TABLE F-8
 ESTIMATED NORTH SLOPE NON-NATIVE RESIDENT
 POPULATION BY AGE AND SEX, 1980,
 FOR-EIGHT NORTH SLOPE VILLAGES

Age	Male	Female	Total
0-4	18	29	47
5-14	4	29	69
15-19	11	11	30
20-34	111	128	303
35-64	114	50	164
<u>65+</u>	<u>2</u>	<u>4</u>	<u>6</u>
Total	368	251	619

SOURCE: Calculated based on 1980 census data presented in Table F-7. The 1980 total North Slope native population for the eight villages was 619 (Table F-10). The population figures in Table F-7, which excluded the villages of Atkasook and Point Lay, totaled only 606. In order to estimate non-Native population by age-sex group for all eight villages, we multiplied the figures in Table F-7 by 619/606, or 1.021.

<u>TOTAL</u>	<u>7,978</u>

-
- a/ Population figure derived from 1984 household census conducted by the North Slope Borough (copy attached).
- b/ Population figure derived from 1982 special census conducted by the City of Barrow and previously accepted by the Department of Community and Regional Affairs.
- c/ Population figure derived from July 1983 household census conducted by the North Slope Borough and previously accepted by the Department of Community and Regional Affairs (copy attached).
- d/ Total industrial area population for the Prudhoe Bay/Kuparuk/Pipeline areas of the North Slope Borough in 1983 was 7,016 based on average annual nonagricultural wage and salary data provided by the Alaska Department of Labor, Research and Analysis Section (which determined that 68 percent of the total Borough nonagricultural wage and salary employment in 1983 was based in the Prudhoe Bay/Kuparuk/Pipeline area). Taking the finding of a special January/February 1982 census in this area conducted for the North Slope Borough under the supervision of the State Demographer that 39.1 percent of that area's population could be counted as North Slope Borough residents for State Revenue Sharing purposes, this area's 1983 resident population has been estimated at 2,743 persons.
- e/ Population figures provided by FELEC Services and the U.S. Air Force (for DEW Line Stations and the Cape Lisburne AC&W site) in 1982 and previously accepted by the Department of Community and Regional Affairs.

TABLE K-3
PROJECTED FUTURE NORTH SLOPE BOROUGH PROPERTY VALUES

	<u>Mean</u>	<u>Low</u>
	(in Billions)	
1985	12.3	12.3
1986	13.42	13.39
1987	14.73	14.48
1988	15.51	15.17
1989	16.10	15.56
1990	16.29	15.65
1991	15.99	15.24
1992	15.68	14.73
1993	15.34	15.64
1994	14.98	13.81
1995	14.55	13.17
1996	14.07	12.53
1997	13.55	11.89
1998	12.95	11.25
1999	12.28	10.41
2000	11.50	9.57

SOURCE: Prepared by Gerald Heier, Alaska Department of Revenue, Division of Petroleum Revenue, April, 1985. The projections assume that the remaining life for economic production is 21 years, and that additional investment will be made as follows:

During 1985	\$1,300,000,000
1986	1,500,000,000
1987	1,000,000,000
1988	800,000,000
1989	300,000,000

The mean case assumes a 4 percent annual inflation rate while the low case assumes a 3 percent annual inflation rate. Projections are included in a letter from Gerald Heier to Jim Sharpe, North Slope Borough finance director, dated April 15, 1985.

1977	\$26,931	\$11,381	\$16,684	\$20,071	\$13,208	\$22,087	\$22,515
Standard Errors ^b	+/- 1,192	+/- 1,046	+/- 1,391	+/- 2,018	+/- 632	+/- 1,219	+/- 649
Number of households	(101)	(21)	(19)	(14)	(53)	(46)	(254)

^a"Missing data" from each of the three income tax years complicates the averages shown, since respondents sometimes did not know, did not earn, or declined to disclose their household income.

Except for Barrow, most missing data is evenly distributed among the other villages across different age groups. This means the average incomes for these other villages are within the standard errors reported.

However, Barrow represents a unique case, since it has a larger percentage of young people than the other villages: those 18-24 are more apt not to know their household income than other adults. Yet, the majority of those 55 or older who did not answer the income questions also live in Barrow. The counterparts of these two groups—those of similar ages, but who reported their income—generally have household incomes below the average for each year. After finding that total months all household members worked correlates highest with reported income, we assigned Barrow missing data the mean incomes of Barrow households with similar work patterns. As such, Barrow income represents estimated income, while all other villages represent reported income.

^bThe reported standard errors can be used to calculate a range of incomes (confidence intervals) which is likely to include the actual average household income that would be observed if every household was included in the survey. For example, we can be 90 percent sure that the actual average household income in 1975 in Barrow fell within the range of \$20,396 +/- (1.65 x \$996) or \$18,753-\$22,039. To calculate a range at a 95 percent level of certainty, multiply the standard error by 1.96.

SOURCE: Tables L-1 and L-2 are reprinted from Jack Kruse, Judith Kleinfeld, and Robert Travis, Energy Development and the North Slope Inupiat: Quantitative Analysis of Social and Economic Change, Han-in-the-Arctic Program Monograph No. 1, pp. 34, 48.

TABLE L-3

Percent Distributions of North Slope Eskimo Families,
by Income, 1960-1977

Income ^a	1960 ^b	1970	1977 ^c
Under \$2,000	34%	14%	3%
\$2,000-\$5,999	39	31	14
\$6,000-\$9,999	27	23	10
\$10,000-\$14,999	—	21	16
\$15,000 +	—	11	57
Total	100%	100%	100%
Median Family Income:	\$3,438	\$6,923	\$17,347
Adjusted Median Income: (1960 Dollars) ^d	\$3,438	\$5,700	\$ 8,952
(Number of Families)	(237)	(451)	(260)

^aThe Census Bureau reported a non-response and substitution rate of 30 percent on the income question in 1960, and 31 percent in 1970, with allocation based upon several characteristics. A 7 percent non-response rate occurred in the 1977 ISER survey of household income; however, allocation was derived by stratifying the income characteristics of households reporting income by the total number of months household members worked for wages.

^bBarrow Election District, which excludes Kaktovik and Point Hope.

^cThe \$15,000+ category for 1977 when broken down further shows: 14 percent of households with incomes between \$15,000-\$19,999; 21 percent between \$20,000-\$29,999; 10 percent between \$30,000-\$39,999; and 12 percent with \$40,000 or more. Also, the median income for households is \$16,651; since 40 percent of one- and two-person households have incomes of less than \$6,000.

^dMedian income x-as adjusted using the Consumer Price Index for Anchorage. As such, the adjusted income should be interpreted as a crude approximation of North Slope Eskimo household income in actual dollars.

Nuiqsut	24,167	--
Point Hope	23,929	--
Point Lay	26,667	--
Wainwright	23,333	23,958

^aSurveys were done by Alaska Consultants, Inc., as part of a comprehensive housing survey for the North Slope Borough. The surveys were based on different sized samples in each community.

SOURCE: Alaska Consultants, Inc., North Slope Borough Housing Survey, prepared for the North Slope Borough, Public Works Department. Anchorage, 1980. Information collected from Alaska Consultants, Inc., Background for Planning. Reports prepared for Anaktuvuk Pass, Atqasuk, Barrow, Kaktovik, Nuiqsut, Point Hope, Point Lay, and Wainwright (June and December, 1983).

TABLE L-23
 LONGEVITY BONUS PAYMENTS^a
 NORTH SLOPE BOROUGH

as of October 10, 1984

<u>Place(s)</u>	<u>Number of Recipients</u>	<u>Amount of Payment</u>	<u>Total Dollars</u>
Anaktuvuk Pass	4	\$250	\$1,000
Barrow, Atqasuk, ^b Nuiqsut, Point Lay	92	250	23,000
Point Hope	20	250	5,000
Prudhoe Bay	1	250	250
Wainwright	19	250	4,750
Kaktovik	<u>6</u>	250	<u>1,500</u>
TOTAL	142		\$35,500

Total Yearly Income (12 • TD) = \$426,000

^aLongevity payments are made to individuals over 65 who have resided in the state for twelve continuous months.

^bThe Longevity Bonus Program keeps track of checks by zip code. Since Atqasuk, Barrow, Nuiqsut, and Point Lay all have the same zip code, it is difficult to differentiate between them.

SOURCE: Personal communication with Marilyn Schafer, Administrator of the Longevity Bonus Program, on October 10, 1984.

Key: OAA--Old Age Assistance; ABL--Aid to the Blind; APD--Aid to Disabled; AFDC--Aid to Families with Dependent Children; FS--Food Stamps.

^aAll cases and grant amounts are for the month named.

^bThere is a break in methods of data collection between October 1982 and July 1984. Information from September 1979 to October 1982 was from a series of statistical reports published by the Division of Public Assistance. Information starting with July 1984 was verbally received from Karen Brittan, Information Office, Division of Public Assistance. The main differences are that no Food Stamp data is available prior to July 1984, and that after October 1982 both categories of AFDC are lumped together.

^cNote that these totals indicate the number of cases--not the number of persons receiving assistance. It is quite possible that one person could receive both AFDC and Food Stamps, for example.

Table L-25. Bureau of Economic Analysis Estimates of Personal Income by Major Sources,
Barrow-North Slope Division, 1977-1982
(thousands of dollars)

Item	1977 (2)	1978	1979 (2)	1980 (2)	1981 (2)	1982 (2)
Income by Place of Residence

State and Local	21,015	23,637	28,551	33,494	42,446	51,277

(1) Estimates based on 1967 SIC. (2) Estimates based on 1972 SIC.

(3) Total personal income less farm earnings (labor and proprietors' income) equals nonfarm personal income.

(4) Earnings (labor and proprietors' income) consists of wage and salary disbursements, other labor income, and proprietors' income.

(5) Includes the capital consumption adjustment for rental income of persons. (7) Includes the inventory valuation and capital consumption adjustments for nonfarm proprietors.

(8) Includes fishing, hunting, trapping; and wages and salaries of U.S. residents working for international organizations in the U.S.

(9) The estimates of military earnings for 1977-82 reflect revisions which have not been made for earlier years. The 1980-82 estimates reflect a correction to census population. Data for earlier years are uncorrected. (D) Not shown to avoid disclosure of confidential information. (L) Less than \$100. Data are included in totals.
