MMS Seeks CARE Award Nominations

The Gulf of Mexico Region of the Minerals Management Service (MMS) is accepting nominations for its 1997 Conservation Award for Respecting the Environment (CARE Award). The CARE Award is presented annually to a company involved in offshore oil and gas operations that goes beyond regulatory requirements to protect and enhance the marine and coastal environment of the Gulf of Mexico Region.

Public agencies, environmental groups, private organizations and companies, or individuals aware of exceptional natural resource projects or achievements generated by the action, initiative, innovation or cooperation of a company doing business on the outer continental shelf are encouraged to nominate that company for the MMS CARE Award.

Nominations received prior to June 27, 1997 will be considered for the 1997 award. Additional information and nomination forms are available by calling the CARE Award coordinator at (504) 736-2780.
