The BLM encourages comments concerning the Applicants' new proposed routes for Segments 8 and 9, the routes previously analyzed in the FEIS, feasible alternative locations, possible mitigation and enhancement measures, and any other information relevant to the proposed action. You may submit comments in writing to the BLM at any public scoping meeting or at any time by using one of the methods listed in the **ADDRESSES** section of this notice. Public scoping meetings will be conducted in an "open house" format with the BLM staff and project Applicants available to explain project details and gather information from interested individuals or groups. The BLM will reach out to the consulting parties who participated in and/or signed the Programmatic Agreement (PA) for Segments 1–7, and 10 to assist the agency in satisfying the public involvement requirements under Section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470(f)) pursuant to 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and Section 106 of the NHPA. The information received will be used to modify the PA to clearly capture the issues and mitigation for Segments 8 and 9.

The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed action that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

Authority: This NOA is published pursuant to the regulations (40 CFR part 1503) implementing the provisions of the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.*).

SUMMARY: BOEM has prepared a Final Supplemental EIS for proposed OCS oil and gas Lease Sales 235, 241, and 247, which are tentatively scheduled to be held in March 2015, 2016, and 2017, respectively, in the Gulf of Mexico CPA offshore the States of Louisiana,

Mississippi, and Alabama. An RMP incorporates into one document all the information pertinent to the future guidance of a management area and may serve as, but not limited to, the basis for future resource decision making for the management area. The RMP is to chart the biological, physical, and social condition that Reclamation desires to see once all the RMP management actions have been implemented. In addition, the RMP provides sufficient detailed ways to efficiently and equitably provide recreational opportunities to meet public demand within its intended planning lifespan.
