Oil and Gas Lease Sale
196

Please Note:

Two new bid systems have been added for royalty suspension: RS8 for tracts in water depths of 1600 to 2000 meters; and RS9 for tracts in water depths greater than 2000 meters. These replace the RS4 bid system for tracts in water depths of 1600 meters or greater that was previously adopted for the Final Notice of Sale 196. The royalty suspension volume for the RS8 bid system is 12 million barrels of oil equivalent, which is identical to that previously specified for the RS4 bid system. The RS9 bid system provides for 16 million barrels of oil equivalent in royalty suspension and is in accordance with the recently enacted Energy Policy Act of 2005.
