

Input and Coordination Opportunities: *Task Force Group Discussion*

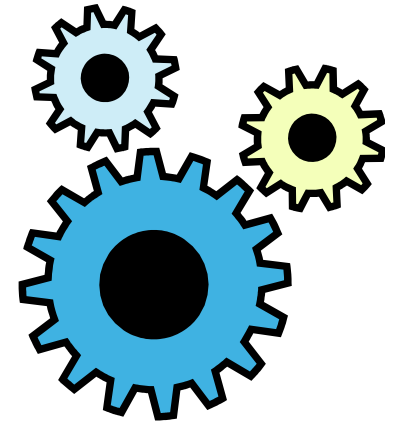

Portland, Oregon
June 26, 2014

- Introduction
- Benthic Study by BOEM /OSU example
- Potential Tools for BOEM and the State of Oregon
 - WindFloat Permitting Team
 - Ideas from the Task Force?

- Comprised of state and Federal agencies with a permitting role or consultation responsibility related to WindFloat Pacific project
- Increase regulatory efficiencies by coordinating the Federal and state permitting processes
- Enhance communication between agencies

- United States Fish and Wildlife Service
- United States Army Corps of Engineers
- National Marine Fisheries Service
- Department of Energy
- Bureau of Land Management
- Federal Aviation Administration
- United States Coast Guard
- Department of Defense
- Oregon Department of State Lands
- Oregon Department of Land, Conservation and Development
- Oregon Department of Environmental Quality
- Port of Coos Bay
- State Historic Preservation Office
- Advisory Council on Historic Preservation

Questions to Start the Discussion:

- 1) During BOEM's review of the contents of the COP if the Task Force has questions how could these be communicated?
- 2) Are there ways the Task Force would prefer to submit comments to BOEM if they have any outside of the formal public comment periods?
- 3) Does the Task Force have input or ideas BOEM could investigate for informal outreach opportunities with stakeholder communities?
