

United States Department of the Interior

BUREAU OF OCEAN ENERGY MANAGEMENT

Alaska OCS Region

3801 Centerpoint Drive, Suite 500

Anchorage, Alaska 99503-5823

Geological or Geophysical Data or Information Announcement of Availability

Outer Continental Shelf (OCS) Permit 82-46 ST. GEORGE and NORTH ALEUTIAN OCS PLANNING AREAS

Date: September 2016

Permittee: ARCO

Type Data: 2D Marine

Survey Dates: April 27 – September 22, 1982

Quantity Data Available: Approximately 1736 miles of multi-channel seismic reflection data on the St. George and North Aleutian OCS Planning areas

Under the conditions of the Permit, acquisition contract, and subsequent regulations, the OCS portions of these data acquired by the MMS (now the Bureau of Ocean Energy Management, BOEM) are now available to the public through the U. S. Geological Survey on the National Archive of Marine Seismic Surveys web site.

Energy source: Airgun

Description of Data or Information:

- The seismic reflection profiles processed as stack and migrated section scanned at 800 DPI to TIFF images
- Velocity in tables on scanned seismic sections
- Navigation in ASCII text file, NAD83

Contact: For further information or expressions of interest in acquiring the data please go to the USGS National Archive of Marine Seismic Surveys web site (<http://walrus.wr.usgs.gov/NAMSS/>) or
