BOEM is pleased to announce a second webinar presented with NREL to share the findings of our two year study for renewable energy and economic development potential in the Gulf of Mexico. Our webinar will cover two reports to be published later this year:

- **Survey and Assessment of the Ocean Renewable Energy Resources in the U.S. Gulf of Mexico**
- **Offshore Wind in the U.S. Gulf of Mexico: Regional Economic Modeling and Site-Specific Analyses**

A formal invitation will be sent shortly providing the details about how to participate for the webinar.

Questions, please contact Andrea Heckman (andrea.heckman@boem.gov or 504.736.5798)
