

## **Gulf Island Fabrication, Inc.**

Bill Blanchard – Vice President, Fabrication Division  
August 22, 2017

Gulf Island Fabrication, Inc. is a leading fabrication and construction service provider for the onshore, offshore, and marine sectors of the global economy. The company was founded in 1985, with our initial public offering being launched in 1997. Gulf Island is a publicly held corporation traded on the NASDAQ under the symbol “GIFI”, still maintaining a strong balance sheet and zero debt. We have grown our business over the past 32 years with a very diverse international customer base, concentrating our early years primarily on the fabrication of offshore oil and gas drilling / production facilities and offsite field services hook-up and integration, with a more recent push into the marine / shipyard fabrication sector, downstream module fabrication, as well as the fabrication of offshore wind turbine foundations. Our fabrication facilities are located in South Louisiana and South Texas, strategically positioned along the US Gulf of Mexico to support our customer base. Gulf Island maintains its corporate office in Houston, Texas. We remain committed to both our employees and customers in striving to maintain a safe work environment and to providing our customers with a quality product with on-time deliveries.
