

Avian Compensatory Mitigation Projects

Thoughts for successful projects

- We are all in this together
 - Share the risk and the reward
 - Best way to achieve a landscape approach
- Allow for adaptive learning
 - Effective outcomes still needed in light of uncertainty
- Effective collaboration
 - Builds predictability
 - Standing working group?

FWS Compensatory Mitigation Standards

1. Effective Siting (landscape approach)
2. In-kind mitigation
3. Reliable and consistent metrics
4. Judicious use of additionality (no net loss)
5. Reasonable timing & appropriate duration
6. Durability
7. Effective conservation outcomes & accountability
8. Effective collaboration
9. Transparency & predictability
