NOTICE OF CORRECTIONS

Leasing Maps Central Gulf of Mexico

The MMS published in the Federal Register (65 FR 2191, January 13, 2000) the status of OCS Leasing Maps and Official Protraction Diagrams.

Errors in **Leasing Map LA3C (South Marsh Island Area, South Addition)** and **Leasing Map LA8A (West Delta Area, South Addition)**, both dated September 1, 1999, were announced last year prior to Sale 175 and are posted to the MMS Internet site at:

<http://www.gomr.mms.gov/homepg/lseale/maps-corr.pdf>

Another two of the revised Leasing Maps each has a typographical error in the note which specifies acreage of certain blocks:

Please be aware that there are technical errors which have been identified on **Leasing Maps LA6, South Timbalier Area**, September 1, 1999, and **LA6A, South Timbalier Area, South Addition**, September 1, 1999. In the "notes" block in the lower left corner of each map, paragraph one, sentence three, the value 3372.18 acres should be 3772.18 acres. This error does not materially affect any related information within the recently released Final Notice of Sale 178, Part 1. The acreage for all blocks described in the Sale 178, Part 1, "List of Blocks Available for Leasing" is correct. Technical comments or questions pertaining to these maps should be directed to Chief, Mapping and Boundary Branch, Leasing Division, Minerals Management Service, P.O. Box 25165, Mail Stop 4011, Denver, Colorado 80225, Telephone (303) 275-7121.

The MMS regrets these errors.
