

Section 106 of the National Historic Preservation Act

What is the Area of Potential Effects (APE) for the Vineyard Northeast Project?

BOEM needs your input: Do you know of historic properties (buildings, structures, objects, archaeological sites, districts, landscapes, traditional cultural properties) that may be affected by the project?

The project has three categories of APE:

1. Terrestrial: The depth and breadth of terrestrial areas potentially impacted by any ground-disturbing activities
2. Marine: The depth and breadth of seabed potentially impacted by any bottom-disturbing activities
3. Visual: The viewshed from which renewable energy structures, whether located offshore or onshore, would be visible
