

# Agenda – Draft Final

## BOEM Fisheries Mitigation Scoping Dialogues

### ***BOEM Fisheries Mitigation Guidance Development December 2021 (2 Hour Sessions)***

The Bureau of Ocean Energy Management (BOEM), in consultation with the National Marine Fisheries Service and affected coastal states, is developing guidance to inform plans and environmental reviews for mitigating impacts from offshore wind projects on commercial and recreational fisheries and fishing. The first step in this process is a series of dialogues to:

1. Present the process for developing draft guidance to key stakeholders and answer questions.
2. Provide information on how to submit comments during the public comment process.
3. Receive comments on key issue areas.

<b>Part I</b>	<b>Welcome and Opening Remarks</b>
<b>Part II</b>	<b>Logistics and Agenda Review</b>
<b>Part III</b>	<b>Overview of BOEM’s Request for Information to Inform its Guidance Document to Mitigation Potential Impacts to Fisheries</b>
<b>Part IV</b>	<b>Public Comment Period</b>
<b>Part V</b>	<b>How to Submit Written Public Comments</b>
<b>Closing</b>	<b>Timeline, Next Steps and Adjourn</b>
