

**UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF OCEAN ENERGY MANAGEMENT
GULF OF MEXICO OCS REGION**

NTL No. 2014-G04

Effective Date: June 1, 2014

**NOTICE TO LESSEES AND OPERATORS OF FEDERAL OIL, GAS, AND SULPHUR
LEASES IN THE OUTER CONTINENTAL SHELF (OCS),
GULF OF MEXICO OCS REGION**

Military Warning and Water Test Areas

This Notice to Lessees and Operators (NTL) is issued pursuant to 30 CFR 550.103 and provides links to the addresses and telephone numbers of the individual command headquarters for the military warning and water test areas in the Gulf of Mexico (GOM). This NTL updates the Bureau of Ocean Energy Management (BOEM) contact information and replaces NTL No. 2009-G06.

Background

The GOM is used extensively by the U.S. Department of Defense for conducting various mission operations, including air-to-air gunnery, rocket and missile research and testing, sonar buoy operations, pilot training, and aircraft carrier operations. These operations are conducted in eleven military warning areas and six water test areas located throughout the GOM (see the BOEM Internet Web site at <http://www.boem.gov/MWA-Boundaries/> for a map). These areas are multiple use areas where military operations and oil and gas operations have coexisted for many years.

To ensure personnel safety and reduce the likelihood of conflicts between military and oil and gas operations, stipulations have been attached to leases located within these military warning and water test areas for over 20 years. The stipulations require the lessee or designated operator to enter into an agreement with the appropriate individual military command headquarters (see the BOEM Internet Web site at <http://www.boem.gov/Military-Contacts-for-Warning-and-Water-Test-Areas/> for a list of military contacts) concerning the control of electromagnetic emissions and use of boats and aircraft in the applicable warning area or water test area before commencing such traffic.

Procedures

For many years, BOEM Gulf of Mexico OCS Region (GOMR) reminded lessees and designated operators of their obligation to enter into an agreement and provided the address and telephone number of the appropriate military command headquarters each time an Exploration Plan (EP), Development Operations Coordination Document (DOCD), or lease term pipeline application was approved for activities on the OCS leases that contained the stipulation. BOEM GOMR no longer provides these lease stipulation reminders in each individual EP, DOCD, or lease term pipeline approval letter and therefore this NTL serves

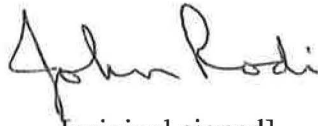

that purpose. BOEM will update the referenced map and contact list as necessary.

Paperwork Reduction Act of 1995 Statement

This NTL does not refer to or impose any information collection subject to the Paperwork Reduction Act of 1995.

Contact

If you have any questions regarding this NTL, you may contact Mr. Carrol Williams by telephone at (504) 736-2803 or by e-mail at carrol.williams@boem.gov.

A handwritten signature in black ink that reads "John Rodi". The signature is written in a cursive style with a large initial "J" and "R".
