

The boundaries of the regular blocks are 4,800 international meters on a side and contain 2,304 hectares. The regular boundaries are defined in terms of X and Y coordinates of the Universal Transverse Mercator Grid System based on the Geodetic Reference System (GRS) 80 Ellipsoid.

The coordinate values appearing on this document were derived using the North American Datum of 1983.

This revised diagram supersedes protraction diagram COLBERT NR 03-03 approved October 1, 1991.
