

The NewsRoom

Release: #3220

Date: January 3, 2005

**Hurricane Ivan Evacuation and Production Shut-in Statistics
as of Monday, January 3, 2005**

The next report will be issued Tuesday, January 18, 2005 at 1:00 pm CDT.

This survey is reflective of 17 companies' reports as of 11:30 a.m. Central Time.

Districts	Lake Jackson	Lake Charles	Lafayette	Houma	New Orleans	Total
Platforms Evacuated	0	0	0	0	9	9
Rigs Evacuated	0	0	0	0	1	1
Oil, BOPD Shut-in	0	0	0	1,193	143,935	145,128**
Gas, MMCF/D Shut-In	0	0	0	10.7	573.99	584.69**

**Shut-in production rates do not include production lost due to the destroyed platforms.

These evacuations are equivalent to 1.18% of 764 manned platforms and 0.85% of 117 rigs currently operating in the GOM.

This shut-in oil production is equivalent to 8.54% of daily production of oil in GOM, which is approximately 1.7 million BOPD. The 145,128 barrels per day that is currently shut-in is approximately 0.74% of the 19.7 million barrels consumed in the U.S. each day.

This shut-in gas production is equivalent to 4.75% of the daily production of gas in the GOM, which is approximately 12.3 BCFPD. The 584.69 MMCF per day that is currently shut-in is approximately 0.97% of the 60.184 BCF consumed in the U.S. each day.

The cumulative shut-in oil production for the period 9/11/04-1/3/05 is 38,004,500 bbls, which is equivalent to 6.282% of the yearly production of oil in the GOM which is approximately 605 million barrels.

The cumulative shut-in gas production 9/11/04-1/3/05 is 150.710 BCF, which is equivalent to 3.387% of the yearly production of gas in the GOM which is approximately 4.45 TCF.

These cumulative numbers reflect updated production numbers from all previous reports. The reports only represent input received by 11:30 a.m. CDT. If a company does not report by 11:30 a.m. it is included in the special information release, but it is included in the cumulative shut-in production. This may result in an apparent increase in the cumulative report amount.

MMS, part of the U.S. Department of the Interior, oversees 1.76 billion acres of the Outer Continental Shelf, managing offshore energy and minerals while protecting the human, marine, and coastal environments through advanced science and technology research. The OCS provides 30 percent and 23 percent of natural gas produced domestically, and sand used for coastal restoration. MMS collects, accounts for, and disburses mineral revenues from Federal and American Indian lands, fiscal year 2004 disbursements of around \$8 billion and more than \$143 billion since 1982. The Land and Water Conservation Fund, which pays for acquisition of state and federal park and recreation gets nearly \$1 billion a year.
