Field Directory	1
Summary of Related OCS Information	200

## Appendices

A — Area/Block to Field	140
B — OCS Lease to Field	165
C — Operators' Field Designation to Field	191
D — Field Nickname, Area and Block by Field	193

## Notice

---

This edition of the *Field Directory* (formerly the Field Names Master List) has in some cases incomplete descriptions of leases that have been apportioned between two fields. That occurs with leases in which the description was exceptionally long and exceeds the available report space. If that information is needed, please contact Monique Belson at (504) 736-2652.

The committee, upon request, has included new data elements. The EIA (Energy Information Agency) field designation is shown next to the BOEM expanded field name. The EIA field code number is displayed to allow cross-referencing to the EIA field data. The expired date column has been expanded to show if the lease has expired, terminated, been relinquished, or consolidated. Included also in this revised format is the cumulative production (including BOE) by lease.

The Field Directory also includes four appendixes. The first two are cross-referencing tables relating lease to field and block to field. The third is a list operator names (for example, Auger) referenced to the BOEM field name. The last appendix is a list of BOEM field names referenced to the operator field names, area, block and lease.

This report is also available on computer disk from the BOEM Gulf of Mexico OCS Region Public Information Office (phone 1-800-200-GULF) or can be viewed on the internet from the BOEM GULF of Mexico OCS Region home page at: <http://www.boem.gov/BOEM-Newsroom/Offshore-Stats-and-Facts/Gulf-of-Mexico-Region/OCS-Operations-Field-Directory.aspx>

The Field Determination Committee at BOEM solicits your comments or suggestions on the *Field Directory*. If you have suggestions or would like to see any other information included in this publication, please contact:

## Introduction

---

An oil and/or gas field in the Federal OCS of the Gulf of Mexico is defined\* as an area consisting of a single reservoir or multiple reservoirs all grouped on, or related to, the same general geologic structural feature and/or stratigraphic trapping condition. There may be two or more reservoirs in a field that are separated vertically by intervening impervious strata, or laterally by local geologic barriers, or by both.

The BOEM Gulf of Mexico Field Determination Committee, comprising a petroleum engineer, a geologist, and a geophysicist, assigns field names to leases with qualifying oil and gas discoveries. The committee reviews new producible lease and first production memoranda submitted by the District Offices, as well as well logs, geophysical data, geologic maps, and other pertinent data to establish the existence of a new field or the extension of an existing field.

Field determinations are assigned for a lease or group of leases so that natural gas and oil resources, reserves, and production can be allocated on the basis of the geologic framework of the unique feature that contains the hydrocarbon accumulation. The Committee strives to include all leases determined capable of producing and associated with a specific geologic structure in a single field. In the case of a common platform serving a large structure as well as a minor satellite structure, the Field Determination Committee may consider it one field. Field determination may be changed at the lessee's or lessor's request when adequate geologic and/or production data would support such a change.

A new field is usually designated after the area and block on which the discovery well is located. The area encompassed by a field may be revised as a result of new drilling and/or significant data. The field determination applied to a specific lease becomes invalid when the lease expires. Expired leases that are subsequently released and become new producible leases are subject to a new field determination.

---

\* "BOEM Guidelines for the Application, Review, Approval, and Administration of the Deepwater Royalty Relief Program."

## Foreword

---

This current list contains the Field Determinations for all active and expired leases that have been determined producible according to the requirements of 30 CFR 250.11. This list will be updated quarterly. Copies of the Master List and Quarterly Updates can be obtained from the Bureau of Ocean Energy Management, Gulf of Mexico OCS Region, Public Information Unit (MS 5034), 1201 Elmwood Park Boulevard, New Orleans, LA 70123-2394. The toll-free telephone number is 1-800-200-GULF.

## Summary of Related OCS Information

The Public Information Office in the BOEM Gulf of Mexico Region provides a large variety of information. The toll-free number is 1-800-200-GULF. The fax number is (504) 736-2620. The mailing address is Bureau of Ocean Energy Management  
Public Information Office (MS 5034)  
1201 Elmwood Park Boulevard  
New Orleans, LA 70123-2394

Publications can be ordered through the Public Information Office or downloaded free of charge through the BOEM website at [http://www.data.boem.gov/homepg/data\\_center/index.asp](http://www.data.boem.gov/homepg/data_center/index.asp)

MasterCard and Visa credit cards are accepted. Please make checks payable to the Department of the Interior–BOEM.

<p><b>OCS Operations Field Directory</b>, bound copy, published quarterly</p>	<p>Bound paper copy: free ASCII file on CD :\$80 ASCII file on Internet: free</p>
<p><b>Estimated Proved Oil and Gas Reserves, Gulf of Mexico</b> is published annually. It provides estimates of original proved reserves, cumulative production, estimates of remaining proved reserves, field discovery year and water depth by field. Fields are ranked based on original proved reserves. Reserves and related data are reported by Western, Central, and Eastern Planning Areas. Reserves are also reported by geologic age. Diskette included as a text or dBase file.</p>	<p>\$3 paper (limited copies). available from Public Information Office and through the online ordering system on the Internet. PDF format on Internet, free.</p>
<p><b>Indicated Hydrocarbon List Central and Western Gulf of Mexico OCS.</b> This report identifies unleased tracts in the Central and Western Gulf of Mexico that have wellbores with indicated hydrocarbons, separated into three categories of tracts. Updated lists will be made available approximately three months prior to each Gulf of Mexico lease sale. Diskette available as a dBase file. ASCII file available upon request.</p>	<p>Free (hard copy) PDF format on the Internet, free. Available from Public Information Office on CD (\$15) Diskette is free. ASCII format on Internet, free.</p>
<p><b>Lease Lists.</b> These are available monthly for active or expired leases and sorted by lease or area/block. The information on the list is lease number, lease type (e.g., oil and gas), area, block lease status (e.g., unit, suspension of production, primary, producing, operations, suspension of operations, expired, relinquished, terminated) status date, if qualified as producible, and designated operator.</p>	<p>\$6 (hard copy) ASCII format, free on Internet. \$6 (hard copy) ASCII format, free on Internet. PDF format is also free on the Internet.</p>
<p><b>Oil and Gas Lease Sale ### Final Bid Recap</b> lists bid-specific information from a lease sale and identifies the bids that were accepted or rejected. Individual copies of the bid recap for a particular sale are available for several months following the completion of the bid evaluation process, which takes approximately 60-90 days following the sale day.</p>	<p>Not available in paper. PDF format free on Internet. Available on CD, including all previous bid recaps, \$15 from the Public Information Office and the online ordering system.</p>
<p><b>Unit List.</b> A list by unit area and includes unit reservoirs, lease, operator and unit number.</p>	<p>Available for review in the Public Information Office.</p>
