Attn: Mr. Don Solanas  
Regional Oil & Gas Supt.  
West Coast Region

Dear Don:

In compliance with the request contained in your letter of 23 April 1968, I am enclosing a copy of a letter prepared by Mr. F. R. Hauber, Chief Marine Engineer of Brown & Root, Incorporated, attesting to the validity of the design criteria originally submitted to you in the application for OCS platforms P-0241 "A" and "B".

We would appreciate your attaching this letter to our original application and process this information together.

We have not yet contacted the Corps of Engineers for the installation permits for these two platforms and would appreciate any suggestions you might have as a means to expedite this procedure.

Yours very truly,

UNION OIL COMPANY OF CALIFORNIA
