

## Sunrise Wind Offshore Wind Farm

# We Want to Hear From You: How to Comment

BOEM is initiating scoping for the Sunrise Wind Project Environmental Impact Statement (EIS) and is asking all stakeholders to submit comments on the scope of the EIS analysis, including potential alternatives and mitigation measures. Providing your local expertise and perspective will help produce a more complete environmental analysis of the proposed project resulting in a more informed decision by BOEM.

### What is BOEM looking for comments on?

- Potential effects that the proposed action could have on biological resources, physical resources, socioeconomic and cultural resources
- Other reasonable alternatives to the proposed action that BOEM should consider, including additional or alternative avoidance, minimization, and mitigation measures.
- Identification of historic properties, potential effects to historic properties, and measures to avoid, minimize, or mitigate adverse effects on historic properties.

### How can I submit my comments?

**During the virtual public meetings** through testimony followed by the Q&A session

**In writing to:**  
Program Manager,  
Bureau of Ocean Energy Management  
Office of Renewable Energy Programs  
45600 Woodland Road (VAM-OREP)  
Sterling, VA 20166

**Online at Regulations.gov** using docket number **BOEM-2022-0071**  
In the box titled "SEARCH for: Rules, Comments, Adjudications or Supporting Documents," enter **BOEM-2022-0071**, and click "search." View supporting and related materials available for this notice, then click the "Comment Now!" button on the right side of the screen.

 For more information on BOEM's Renewable Energy Program, visit [www.boem.gov/Renewable-Energy](http://www.boem.gov/Renewable-Energy)

### When are comments due?

Comments must be received or postmarked no later than  
**FEBRUARY 14, 2023**

### What will BOEM do with the comments it receives?

When the public comment period is finished, BOEM will analyze comments. When the public comment period is closed, BOEM will analyze the comments received, conduct technical analyses, and prepare the draft Environmental Impact Statement (EIS).

The draft EIS will include a summary that identifies all alternatives, information, and analyses submitted by State, Tribal, and local governments and other public commenters during the scoping process for consideration by BOEM and the cooperating agencies in developing the draft EIS.
