Key Speaker Bios

Jeremy Stefek | Workforce Development Researcher, NREL

Jeremy is a workforce development researcher at the National Renewable Energy Laboratory. Jeremy's research seeks to estimate the demand for clean energy jobs, understand training and education program needs, and explore the challenges and opportunities for workforce development. He is a subject matter expert for land-based wind energy, offshore wind energy, wind energy supply chain, and waterpower technologies. Jeremy also supports stakeholder engagement activities, providing community resources related to wind energy.

Martin Heinze | Branch Chief - Leasing Economics Coordination Branch, BOEM

Marty Heinze is currently Branch Chief of the Leasing Economics Coordination Branch supporting the Bureau of Ocean Energy Management's conventional and renewable energy programs. He has more than 20 years of public land management and policy experience with the Department of the Interior. Marty received a BA Economics/Business from the Virginia Military Institute, MA Economics from George Mason University and MBA from Brenau University. He also served six years in the United States Marine Corps.
